GutterLock

Elite

GutterLock Elite is our premium gutter cover that protects your home from the problems of clogged gutters. Designed to handle any heavy rainfall, GutterLock Elite will fit the existing gutters, enhance the support of the gutters, and protect your home for years ... Guaranteed!

- Heavy gauge aluminum
- Fits over existing gutters
- Does not screw into the roof
- Eliminates cleaning of gutter
- Provides animal and pest control
- Made in the USA!

GutterLock Elite

GutterLock Elite is a 4' length panel that installs universally on 5" and 6" gutters. Elite comes in 13 colors.

Elite can be ordered in quantities of 25 pieces (full box = 100 ft.) or

4 pieces (which is a small box of 16 ft.).

1 - 499 pieces = Regular Shipping / 500 or more pieces = Discounted Shipping

GutterLock Elite

Contact us for pricing

GutterLock Elite and **Extreme Flow** is available in 13 colors*:

White	Gray	Charcoal
Cream	Clay	Sand
Bronze	Brown	Musket Brown
Dark Bronze	Black	Forest Green
Linen	*See Dealer sample chips for exact color match.	

GutterLock

EXTREME FLOW

GutterLock Extreme Flow is our premium gutter cover that offers all the benefits of the GutterLock Elite products with an even higher degree of protection on troublesome drainage areas. GutterLock Extreme Flow can be used in conjunction with the Elite product for a combined gutter protection system. GutterLock Extreme Flow is designed to work best in high flow areas of the gutter system:

- Steep Roofs
- Metal Roofs
- Valleys
- Inside Corners
- Designed to handle the toughest drainage areas of the gutter system, GutterLock Extreme Flow will fit the existing gutters, enhance the support of those gutters and also provides animal and pest control.

GutterLock Extreme Flow

GutterLock Extreme Flow is a 4' length panel that installs universally on 5" and 6" gutters. Extreme Flow comes in 13 colors. Extreme Flow can be ordered in quantities of 25 pieces (full box = 100 ft.) or 4 pieces (which is a small box of 16 ft.).

1 - 499 pieces = Regular Shipping / 500 or more pieces = Discounted Shipping

GutterLock

D♦I♦A♦M♦O♦N♦D

GutterLock Diamond's ribbed cover allows for debris to be lifted off with a gentle breeze. Uncovered gutters and downspouts can easily get clogged with leaves and debris. When gutters are clogged they will overflow with water which can cause major damage to your customer's home foundation, fascia, landscaping, and siding. GutterLock Diamond has a diamond-shaped filtration system that can handle any rainfall and outperforms other gutter protection products with round holes.

- Very affordable
- 100% recycled aluminum
- Environmentally friendly
- Fits all residential gutters
- Diamond holes handle ANY rainfall
- Provides animal and pest control
- Adds more stability to gutter system
- Available in both 5" and 6" sizes

GutterLock Diamond

GutterLock Diamond is a 6' length panel that comes in 5" and 6" widths and colors Black and White only.

There are 50 pieces per box that equals 300 ft.

Diamond can only be ordered in full box quantities.

1 - 14 boxes = Regular Shipping / 15 or more boxes = Discounted Shipping

GUTTERLOCK **ELITE** AND **EXTREME FLOW** ARE AVAILABLE IN 13 COLORS

*See Dealer sample chips for exact color match.

GUTTERLOCK **DIAMOND** IS ONLY AVAILABLE IN 2 COLORS

GutterLock

EZ Drop-In Mesh

GutterLock EZ Drop-In Mesh cover allows for leaves and debris to simply blow away instead of clogging up your gutters. This all-aluminum mesh cover is made in our successful diamond cut pattern that can easily handle any rainfall.

- This cover is not visible from the ground
- Very easy to install
- No screws needed
- Each panel just snaps to the front lip of the gutter
- No warranty

GutterLock EZ Drop-In Mesh

GutterLock EZ Drop-In Mesh is a 4' length panel that comes in 5" and 6" widths.

Only available in Mill Finish. There are 25 pieces per box that equals 100 ft.

EZ Mesh Drop-In can only be ordered in full box quantities.

1 - 14 boxes = Regular Shipping / 15 or more boxes = Discounted Shipping

Gutter Protection Systems

OUR QUALITY GUARANTEE

During manufacturing and installation, natural oils may adhere to the GutterLock Elite/Extreme Flow panels and cause minor runoff on newly-installed systems. This is normal and will discontinue after 30-60 days. Normal weathering will enhance the performance of the GutterLock Elite/Extreme Flow system. Over time, dirt may build up around the horizontal edge of the system. Annual cleaning using a garden hose with a sweep nozzle or pressure hose nozzle will help maintain proper performance. In regions where excessive tree sap, hardwood tree tassels, and/or pine resin are prevalent, this front edge may require additional cleaning. Alignment and spacing is critical for performance.

Only allow a certified dealer to adjust or tamper with the system, and do not allow ladders to come in contact with the gutters or the GutterLock Elite/Extreme Flow system attached to the gutters. The performance of GutterLock Elite/Extreme Flow is reduced with the use of paints and waterproofing chemicals. Do not paint the GutterLock Elite/Extreme Flow panels or components.

GutterLock Elite/Extreme Flow is designed to be a closed system. Water flows into the gutter at the pre-set gap along the gutter front, but birds and animals are prevented from entering and obstructing the flow of water. If gaps, spacing, misalignment, or missing endcaps allow birds or animals to enter the system, contact your GutterLock Elite/Extreme Flow installer for service.

If your GutterLock Elite/Extreme Flow is damaged by actions beyond your control (such as hail and other acts of nature), corrections should immediately be made to maintain peak performance. If accidental damage or misalignment does occur, please call your GutterLock Elite/Extreme Flow installer for service. GutterLock Elite/Extreme Flow will not eliminate ice formation or icicles at your eaves. Ice formation is mostly caused by factors not related to your gutter system. In fact, you may see more ice (icicles) on the outside of the GutterLock Elite/Extreme Flow system because an open gutter tends to collect ice inside the gutter; however, GutterLock Elite/Extreme Flow is engineered to discourage anything from entering the gutter except water. Therefore, it is normal to see some icicles on the outside of the GutterLock Elite/Extreme Flow system.

INSTALLATION

INSTALL VIDEOS

SCAN ME

- All of our styles of products are very easy to install but the manuals and install videos explain tips and tricks that will help the installers
- EZ Drop-In Mesh installs by snapping the product to the front lip of the gutter.
- Diamond installs by sitting flat on the gutter with four screws on the front and two screws in the back
- The panels interlock, are easy to cut, and don't need any additional accessories to complete the job
- The Elite and Extreme Flow install by sliding the panels under the first layer of shingles and screwing to the front edge of the gutter
- Use end caps, inside miters, and diverters wherever needed
- To access and open installation videos go to our website www.gutterlockdealer.com, Click on support to access all our install videos.

PACKAGING

- Diamond panels are 6 ft long sections that come 50 pieces per box
- Diamond can be ordered in 5" or 6" and Black or White
- EZ Drop-In Mesh/Elite/Extreme Flow are 4 ft long sections that come 25 pieces per box
- We also sell Elite/Extreme Flow in a 4-piece box
- Elite/Extreme Flow can be ordered in 13 different colors
- Elite/Extreme Flow have 3 accessories designed to keep the system a completely enclosed system
 - End Caps (which close in the end of a run of gutters) – come in left and right and in all colors and can be ordered by the pair
 - Inside Miters (which fit over any inside corner) – come in all colors and can be ordered by the piece
 - Diverters (which install over any area of high flow of water to deflect water from overflowing the panels) – come in all colors and can be ordered by the piece
